## 6" X 60" TWIN SHAFT MIXER

**ADVANCED  
TECHNOLOGY  
PROVEN DESIGN**

Young Industries Twin Shaft Mixers are designed to thoroughly mix powders on a continuous basis. Our mixers are designed and manufactured to meet the exact requirements of the application. We recently manufactured a Size 6 x 60 Twin Shaft that had some interesting features.

- 316LS/S construction in product contact surfaces
- Adjustable paddles to precisely adjust retention time of mixing
- Two-piece cover
- 304S/S Support base with fork-lift pockets
- ASME UM jacket, 304S/S, rated for 165 PSIG @ 500 degrees F. Hydro tested at 245 PSIG
- Shaft mounted direct drive inverter duty gearmotor
- Removable Weir Gate

*Custom Is Our Standard*
